CAMP 93
OCT 3 1934
M. D.

CONVENTION NUMBER

THE JOURNAL
Of Phi Rho Sigma

Vol. XXXI | September First, 1934 | No. 1

COME WITH US TO MINNEAPOLIS!

HEADQUARTERS

All delegates and guests will be housed in the new residence for men at the University of Minnesota which has been placed at our disposal by the University authorities. This pioneer hall is an attractive structure about two blocks from Theta-Tau Chapter House. It overlooks the Mississippi River and is arranged in eight houses, forming a quadrangle.

Arrangements have been made to furnish meals as well as living quarters and there is ample provision for social rooms and comfortable lounges. Two men will be assigned to each suite and the entire expense including rooms and meals will not exceed ten or twelve dollars for the duration of the Convention.

TRANSPORTATION

The Northwestern Railroad will have charge of all the transportation. All delegates east and south of Chicago will be furnished special round trip tickets to Chicago, leaving their own cities in time to make connections with the Northwestern train leaving Chicago, Saturday or Sunday evening and arriving in Minneapolis in time for breakfast the next morning.

The Northwestern will have special Phi Rho Sigma cars, Chicago to Minneapolis. Reservations by guests and Alumni should be made by application to the Secretary-Treasurer, Ralph W. Elliott, 10515 Carnegie Avenue, Cleveland, Ohio, not later than September 1.

For the information of Alumni the following round trip rates are furnished by the railroad to Chicago, from points located east and south of Chicago: Halifax, $65.35; Toronto, *$18.00; Montreal, *$29.50; Detroit, *$9.10; Ann Arbor, *$9.20; Cleveland, *$12.55; Columbus, *$11.50; Cincinnati, *$10.55; Indianapolis, *$6.90; Pittsburg, *$17.15; Philadelphia, *$29.75; Rochester, N. Y., *$21.45; New Orleans, x$37.55; Atlanta, x$28.85; Augusta, x$35.70; Baltimore, x$28.00; Charleston, x$39.05; Wake Forest, N. C., x$35.60; Memphis, x$21.76; Richmond, Va., x$32.25.

*On sale Tuesdays and Saturdays. x On sale daily.

The round trip rates to Minneapolis from points west of the Mississippi River are as follows: St. Louis, **$27.90; Little Rock, **$41.85; Dallas, **$54.50; Omaha, xx$14.10; Iowa City xx$12.80; Denver, xx$37.05; San Francisco, xx$86.00; Los Angeles, xx$86.00; Chicago, xx$16.30; Winnipeg, xx$17.85.

**Via Chicago, Illinois. xx Direct route.

The round trip fare from Chicago to Minneapolis is $16.30, which is first class and is limited to ten days. The return coupon from Minneapolis to Chicago will be honored from Rochester to Chicago.

PROVISIONAL PROGRAM

SUNDAY AFTERNOON

Meeting of the Grand Council.

SUNDAY EVENING

The members of the Grand Council will be guests of the Twin City Alumni Chapter of Chapter International.

MONDAY MORNING

Pioneer Hall—Registration of the members of Grand Chapter and guests.

10:00 A. M.—The opening session of the Grand Chapter of the Fraternity assembled for its eighteenth meeting.

Address of Welcome—"The Place of the Professional Fraternity in Medical Education", Ellis P. Lyon, Gamma, Dean of University of Minnesota Medical School.

Response—"The Objectives of Phi Rho Sigma", Irving S. Cutter, Iota, Dean of Northwestern University Medical School and President of Grand Chapter of Phi Rho Sigma.

MONDAY AFTERNOON

A. A Planned Chapter Administration, Jonathan Forman, Omega, Vice President and Editor of the Journal. Discussion opened by delegates from Theta Tau, Iota, and Chi Chapters.

B. Cooperation with the Central Office, Ralph W. Elliott, Kappa, Secretary and Treasurer of Grand Chapter.

C. Committee Meetings.

MONDAY EVENING

Exemplification of the Ritual by a team from Theta Tau Chapter.

A get-together evening with an address, "General Custer's Defeat on the Little Big Horn," Irving S. Cutter, Iota, President of the Grand Chapter. (Illustrated.)

Buffet Supper.

TUESDAY MORNING

9:30-10:30.

Round Table Discussion: "Problems of Policy for the Fraternity as a Whole", Calhoun McDougall, Chi Beta.

a. Scholarship (Alpha).
b. Preceptorship.
c. Fireside Talks.

TUESDAY AFTERNOON

Rushing and Pledging—

1. Methods.
2. Talks.
3. Pledge training.
4. Pre-medic pledging.

TUESDAY EVENING

Supper and Dance.

WEDNESDAY MORNING

9:30—10:30.

Chapter Management—

Samuel A. Donaldson, Zeta.

Homer Heath, Secretary of Ann Arbor Trust Company.

Internal Development—

Report of a committee to investigate the next steps to be taken in the Internal Development of the Fraternity, Walter M. Simpson, Zeta.

WEDNESDAY AFTERNOON

Committee Reports.

WEDNESDAY EVENING

Convention Dinner, Minnesota Club, St. Paul.

THURSDAY

Visit to the Mayo Clinic at Rochester The trip will be made through the beautiful rolling country of southeastern Minnesota. Special features for the day will be in the hands of the Alumni at Rochester.

The Women's Auxiliary of Theta-Tau Chapter cordially invite the wives of delegates, officers and Alumni to attend the Minneapolis Convention. The "doings" will be entirely informal, but knowing our hostesses we know that you will have a delightful time.

MINNEAPOLIS COMMITTEES

General Chairmen—Dr. Elias P. Lyon, Harold G. Scheie.

Alumni Committee—Dr. Ivar Sivertsen, Dr. Frank Wildebush, Dr. Carl L. Larsen, Dr. Lyman Ray Critchfield, Dr.

Harry M. Weber, Dr. Lee Willis Barry.

Ritual Committee — John Stephan Cowan, John Albert Boraas.

Entertainment Committee — Lynn Mathew Hammerstad, Robert O. B. Quello.

Reception Committee — Glenn Jesse Mouritsen, Robert Rufus Ambrose.

Registration Committee—Glenn Leemhuis, Erling Trygve Hauge.

Transportation Committee — Theodore Arthur Pearson, Cecil Alfred Wilmot.

Women's Auxiliary Committee — Mrs. Jessie Francis McClendon, Mrs. Richard Herman Lindquist.

Committee on Mayo Trip—Leonard David Swenson.

Assistant to Secretary-Treasurer—Halward M. Blegen.

CHI BETA CELEBRATES 30th ANNIVERSARY

On February 24, 1934, Chi Beta Chapter celebrated the thirtieth anniversary of the establishment of Epsilon Chapter of Chi Zeta Chi (affiliated with Phi Rho Sigma, April 6, 1929) on October 24, 1904, at what was then the Atlanta College of Physicians and Surgeons, now the School of Medicine, Emory University, Atlanta, Ga. Our chapter was the first medical fraternity to be established at this school.

The occasion was the annual initiation and banquet held at the Piedmont Hotel. The following were initiated into the fraternity in a very impressive manner:

John Howard Hines, Edward Groves Jones, Robert Tyre Jones, Haywood Leland Moore, Joseph B. Neighbors, Francis Michael Sullivan.

The following brothers took their respective parts:

Challenge, Andrews.
Aescelapius, Wolff.
Paraselsus, Myers.
Senior Warden, Jackson.
High Priest, Russell.
Musician, Bosworth.
Acolites, Williams and Roberts.
Mephistophiles, Jackson.
Property, Adams.

Those present were in formal dress which lent dignity to the occasion.

The following alumni were present: Bros. Geo. Bachmann, C. L. Barrett, Marion T. Benson, Sr., Marion T. Benson, Jr., G. W. Brugler, J. J. Clark, Chas. A. Eberhart, Dan. C. Elkin, H. G. Estes, W. C. Goodpasture, S. D. Gausemel, Jas. F. Hackney, Cecil M. Mogan, Hugh M. Lokey, Wm. L. McDougall, J. Calhoun McDougall, Russell H. Oppenheimer (Dean), V. H. Osborne, Francis P. Parker, R. E. Pool, and Geo. A. Williams.

The banquet was presided over by President C. R. Andrews, who with the other chapter officers sat at the head of the table. The newly initiated brothers and the active members sat on one side of the banquet hall and the alumni sat on the other.

The evening was most enjoyable for everyone. There were no formal speeches, but each alumnus was called on to give a few remarks. Brother Hugh M. Lokey spoke on the fraternity as it used to be under Chi Zeta Chi. Brother J. Calhoun McDougall spoke at length on the progress made by Chi Zeta Chi and especially of the fraternity after affiliating with Phi Rho Sigma. Dr. Marion T. Benson, Sr., was congratulated on having had one son graduate last June and another in the Medical School. All three are members of Chi Beta.

The singing and hilarity was led by Brother Dan C. Elkin, head of the Department of Surgery. Dean Russell H. Oppenheimer gave some very interesting remarks.

There are over seventy alumni of the local chapter practicing in Atlanta and vicinity, and over twenty-five alumni from other chapters practicing in Atlanta. We have twenty brothers in the faculty of the School of Medicine.

Everyone voted that he had had the best time, of fun and fellowship, in years and his only regret was that there were not more of the alumni present.

Word has been forwarded to the editor of the Journal that a new Medical College will be erected at Little Rock, Arkansas, by the University of Arkansas. The buildings are to be completed within the next year.

DELTA CHAPTER LETTER

SOUTHERN CALIFORNIA. After rushing season was completed last fall with the pledging of four new members, Delta carried on with the most successful Founders' Day Banquet held for some time. It was held in the banquet hall of the Asbury Apts., which was filled to its capacity and more room had to be provided.

Delta began sponsoring Alumni Smokers this year in order to bring the alumni in closer contact with the active chapter. The second of these was held at Dr. Soiland's Galley, a coffee shop owned by Dr. Soiland in the city. Both smokers were well attended by many alumni and beer and pretzels were served for refreshments.

The active chapter held an informal dance at the close of the first semester at which everyone enjoyed themselves thoroughly after final examinations.

John Deck, Jr., '37, was recently married to Miss Marie Middlekauf at his home in Santa Monica. The chapter joined in wishing him much future happiness.

Initiation of new members is to be held at the home of Dr. Clifford Wright, a Delta alumnus and a prominent endocrinologist in southern California. Invitations have been sent to all alumni and a large group is expected to attend.

Drummond Radcliffe '34, has been appointed assistant to Dr. Foord, professor of Clinical Methods of Diagnosis. This appointment is a distinct aid to Phi Rhos.

The present senior class have all obtained interneship appointments in Los Angeles. The majority of them are to interne at the L. A. County General Hospital. The medical school is fortunate in being able to offer its clinical work at this institution. The new twelve million dollar hospital has been recently occupied and every type of clinical material is available under excellent conditions. The new hospital is to be dedicated some time in April.

The election of officers for the coming school year was held at a recent chapter meeting at which time Orville Witherbee, Jr., son of O. O. Witherbee, one of the founders of Phi Rho Sigma, retired from office. The chapter had a very successful year under Dr. Witherbee's guidance. The newly elected officers are as follows: Francis E. Guinney, president; Ralph M. Milliken, vice president; Lowell L. Emmons, secretary, and Elmer O. Carlson, treasurer.

Delta has been fortunate in being able to call in alumni to address the chapter at its bi-monthly meetings. The talks have been interesting and educational. Some of the physicians who have addressed us are: Dr. Nance Anderson, Dr. Frank W. Otto, Dr. Pierre P. Viole, Dr. A. M. Roberts and Dr. Lewis A. Aleson.

The annual spring formal dance is Delta's next social event and if past formals are a criteria, the coming dance will be a big event on the Phi Rho's calendar.

Dr. L. F. Heimburger recently returned on a furlough from China by the way of the Suez canal and Europe. Dr. Heimburger's address while in this country will be, c/o China Union Universities, 150 Fifth Ave., New York City.

Dr. Adolph E. Voeglin spoke on the "Clinical Uses of Oxygen" before the East Side Medical Society, Detroit, Michigan, April 27th.

A recent issue of the Philadelphia Public Ledger contained an interview with Dr. Earl D. Bond, the well-known psychiatrist and the director of the Institute of the Pennsylvania Hospital.

OHIO STATE. Dr. W. M. Athey announces the reopening of his offices in the Medical Arts Building, Cleveland, Ohio. He is specializing in the practice of Obstetrics.

PLANNING FOR 1934-35

Phi Rho Sigma exists in your school to select a group of congenial souls and to teach them to do interesting things together which will be mutually helpful in making better physicians out of each of its members.

If you are to get the most out of your chapter life it must be planned. This means that the officers of the chapter should form themselves into a Board of Directors to lay out a well rounded program for the Chapter. Without this little can be accomplished and with it most of the details of Chapter life can be taken care of without the necessity of wasting all of the members' time. Many Chapter meetings kill rather than inspire because the time is taken up by useless debate and wrangling over simple little details that could have been settled by the Executive Board or the proper committee with no loss of time. If this is done, then Chapter meetings do not have to be held so often and their program can be devoted to constructive things that everyone can see are worth while.

RUSHING

The business of getting members through active rushing and the proper selections from the student body is the foundation upon which the whole future of the Chapter is built. Rushing therefore is of fundamental importance. Character, congeniality, better-than-the-average intelligence, and a real interest in Medicine are the qualities to be required of each member. Ability to pay his own way is another requirement that must always be given consideration. Seldom indeed is encountered a medical student who will prove such an asset to the group that the members should be asked to pay the newcomer's way through school. This is what the Chapter has to do for every delinquent. Another thing that jeopardizes the existence of medical fraternities on several campuses is the very foolish custom of marrying while in school. Chapters which maintain house should always be very choicey when considering married men. Too often they have little to offer the Chapter. Finally, may I suggest that all concerned with rushing re-read Chapter XV in the Manual of Phi Rho Sigma.

In selecting men for our Fraternity much stress should be placed upon congeniality for after all Phi Rho Sigma is a social group—a fraternity first, last and always. Each Chapter will do well to instruct the delegate to get all the new ideas on rushing technique that he can while he is at the Minneapolis Convention of the Grand Chapter.

All pledge talks should emphasize both the social and the professional side of the Fraternity. It is a very grave mistake to boast of the Alumni or the Faculty, as it always acts as a boomerang. In one or two instances the student loan fund has been oversold and a sponger has come in. Give a well-rounded talk stressing all of our strong points in their proper relation to the Indivdual member.

CHAPTER FINANCES

Every member should read again Chapter IX of the Manual. No Chapter can operate as well off of a budget as it can on one. The Chapter President and his Executive Board should help the Treasurer prepare the budget for the year. This should be done by these officers carefully, thoughtfully, and promptly submitted to the Chapter for its approval. Only in this way can you have a happy Chapter which can realize in full its fraternal blessings.

CAMPUS PUBLICITY

The President of the Chapter should see to it that the brother in charge of "Campus Relations" should get a good write-up of every Chapter activity in both the University and the down-town papers. Consistent plugging here will create a world of good will and make rushing the easier as the years go by. This is a long haul and cannot be done sporadically.

Another important step here is to get at least two good stories about prominent Alumni in the Alumni Monthly and make it very clear that they are Phi Rhos.

ALUMNI TALKS

The keystone of Chapter life in ΦPΣ, regardless of whether a house is maintained or not, is its alumini relations. The whole international organization of our fraternity is keyed to its alumni service. If the undergraduate can get the contacts with alumni, by which he acquires the necessary data to plan his own career in medicine, then we feel that ΦPΣ has justified its existence.

The single greatest contribution that an alumnus can make is to give fireside talks to the Chapter. ΦPΣ has found that it is best to let the alumnus come to dinner alone and after dinner to let him talk informally and always about the Art of Medicine, never about the Science. In this way the alumnus comes to know the members of the active Chapter and they him. At the same time they get ideas about how to carve out a career.

To the Chapters not maintaining a house let us urge these dinners as the best way to promote interest in the Chapter meetings and to make attendance worthwhile. They should be held at least once a month.

In arranging for a series of alumni talks, the Chapters are advised to plan a program for the school year and send a copy to each man who is to talk and to the editor of THE JOURNAL; to see that each alumnus talks on a subject next to his heart, but not a technical address, to close the fireside talk at 8 p. m. sharp, and invite the pledges.

Subjects suggested are: Planning a Career in Medicine; How to Get Started in General Practice; The Economic Side of Practice; Postgraduate Opportunities at University of Pennsylvania, Mayo Clinic, Cleveland Clinic, Harvard University, in Chicago, New York City, London, Paris, Berlin or Vienna; Planning a Career in Surgery or Other Specialty; The Opportunities in Rural Practice; Fitting Out the Physician's Office, etc., etc.

The "fireside talks" of ΦPΣ were developed first at Ohio State and Nebraska and have been adopted by all of the Chapters. The Pittsburgh Chapter suggested the name, "The Forum of ΦPΣ," for Chapters without houses. There these talks are given for the Chapter, but several of them are open to the medical public of the city and the student body of the University of Pittsburgh. This year the plan calls for one out-of-town alumnus who is outstanding in the Fraternity and a recognized authority upon his subject. In this way Pittsburgh has adopted all that the Fraternity has attempted in the way of "fireside" talks and lectureships and are proving on their campus that ΦPΣ is a professional fraternity with equal emphasis upon each word.

A chapter of a medical fraternity can be successful in any medical school, whether the Chapter is grouped in dormitories, or fraternity houses, or is quartered in rooming houses, hotels, and hospitals. Success in chapter life simply consists in doing interesting things together. If these interesting things happen to be those cultural subjects which give a man a background for a career in Medicine, then we have attained the ideal.

To accomplish the objectives of a truly professional fraternity, two of our Chapters this year are instituting a preceptor system of their own. Each freshman when he is pledged is assigned by the proper authority to a "frater in urbe," who becomes his preceptor for his four years in Medicine. Once the assignment is made and the preceptorship agreed upon, the Medical student has the opportunity to go to a successful physician and learn from him the art of Medicine. In this way, the fraternity contributes to the student's education in a way that is supplementary to the work of the faculty, because the curriculum is devoted to the sciences which, at best, can only be a background for the Art of Medicine.

As these boys assemble in groups for "bull sessions," conversation naturally turns to the relative value of the various members' experience under different preceptors, so that each will get the cream of the other's experience.

A selected group of congenial souls bent on doing interesting things together

THE JOURNAL

Of Phi Rho Sigma

is the official publication of the Fraternity and goes every other month to every living member.

Subscription $1.50 **Single copy 20c**

Address all communications concerning the JOURNAL to the Editor, 956 Bryden Road, Columbus, Ohio. Correspondence concerning the Fraternity in all other matters should be sent to Dr. Ralph W. Elliott, Secretary-Treasurer, 10515 Carnegie Ave., Cleveland, Ohio.

The Permanent Committee of the Grand Council of the Fraternity on the Journal is composed of all living past Editors:

Dr. C. Guy Lane, Boston, Mass., Chm.
Dr. Francis Jones, Atlanta, Ga.
Dr. King Wade, Hot Springs, Ark.
Dr. H. L. Brehmer, Albuquerque, N. M.
Dr. T. Victor Keene, Indianapolis, Ind.
Dr. Walter Baker, South Bend, Ind.
Dr. C. R. Marshall, Indianapolis, Ind.
Dr. Edgar W. White, New Yor kCity.
Dr. A. W. Metcalf, Denver, Colo.

Editor

DR. JONATHAN FORMAN,

Associate Editors

956 Bryden Road, Columbus, Ohio.
REX WILSON, Ω, 1520 Neil Avenue, Columbus,Ohio.
DR. WALTER M. SIMPSON, Z, 3023 Miami Valley Hospital, Dayton, Ohio.
DR. SAMUEL W. DONALDSON, Z, 4293, St. Joseph's Mercy Hospital, Ann Arbor, Michigan.

Assistant Editors

Dr. Arthur C. Morgan, λ-Φ, 3543, Philadelphia, Pa.
Dr. Harold Witherbee, Δ & A, 1068, Los Angeles, Calif.
Dr. Frank Queen, AΔ, 7979, Rachester, N. Y.
Dr. Ralph Cox, K, 2833, Cleveland, Ohio.
Dr. George Williams, XB, 8408, Atlanta, Ga.
Dr. Paul S. Lowenstein, XH, 7340, St. Louis, Mo.
Dr. Chas. E. Kinney, K, Cleveland, Ohio.

Vol. XXXI September, 1934 No. 1

THIS journal is published by tre Fraternity with the hope that it will be read by every living member and in an attempt to interpret the life of the medical student and the work of the Fraternity to the individual alumnus.

FRATERNITIES NEED THOROUGHGOING REFORM

Members of the great brotherhood of Greek Letter fraternities: If you don't watch your step you will soon be saying: "My son, do you see that University rooming house over there? Well, that *used to be* our fraternity house."

Unless there is a thorough-going house cleaning throughout the whole fraternity system in the near future, it won't be long before fraternities will be institutions of the past on Michigan campus.

The first step in the proposed house cleaning should be the abolishment of the Judiciary Committee of the Interfraternity Council. The most valuable service this body renders to the fraternities is to sit back, after some house has gotten into trouble, and say, "we told you so." Besides, if you can't run your houses without having the dean of students and several alumni, who only remember the nice things they did while in college, telling you what to do, you have no right to exist. You would be much better off if you returned to your homes where your mothers could give you that tender care which you apparently need.

The second step should be to wrap up the deferred rushing plan, along with the other rushing regulations, and send it to the dean with a note saying: "Sorry, we can't use this." The present rushing rules do not protect those who are willing to live up to them, and the rules do not deter those who don't want to live up to them. Some system ought to be worked out, by fraternity men, which would be respected by all concerned.

The University should, in other words, let the fraternities paddle their own canoe. If they then reach a point whereby they are a detriment to the University, the administration ought to disband them; or, if the abuses in any one house are such that the University is given a black eye as a result, then that house ought to be kicked off the campus, bag and baggage.

The third step should be to do away with some of these old traditions, such as hell week, that you carry on just for old times sake. If you are really sincere about your hell week activities, then carry them on in a dignified manner and not like a bunch of high school kids. Most hell weeks are organized by a couple of upperclass morons who delight in showing their authority. You should lock these perverts up in a closet until your activities are all over.

And lastly, get some organization within your various houses. Although this does not apply to all fraternities, there are a number of them which amount to nothing more than good rooming houses; each fellow does pretty much as he damn pleases with little regard for the rest of his brothers. There isn't even any discipline in a number of the pledge classes. One house was unable to initiate any pledges out of a class of twenty-two, largely because the pledges did not make their grades. Another house had seven pledges out of seventeen eligible for initiation. Similar incidents have occurred in other houses, the most prominent of which was the walking out of an entire pledge class.

The fraternities have slipped badly during the last few years. They are weak and without leadership. Every time the administration offers them a plan, they swallow it hook, line and sinker. It is about time they were standing on their feet and showing some spunk.—*Michigan Daily.*

WASHINGTON. Oreon K. Timm has an appointment as Senior Interne in St. Louis County Hospital, Clayton, Mo. He says this is an excellent hospital for developing initiative. Splendid traumatic service. Very little supervision.

Salvator R. Lantiere is Resident Pathologist in the Multnomah County Hospital, Portland, Oregon. He says, "Resident works under Dr. Frank Menne who is the professor of Pathology at the University of Oregon Medical School, as well as Pathologist to the adjoining county hospitals. Duties of the Resident are pathology work for the hospital, post mortums for the city as well as the hospital, and assistant in the Pathology classes at the Medical School. Complete maintenance and $40.00 monthly is the compensation."

Henry Durst is practicing at 503a Court Street, Fulton, Mo.

Willard Scrivner is in practice at Spivey Building, East St. Louis, Ill. He has just completed an internship and residency in Barnes Hospital and reports a very valuable and interesting and thorough training in Gynecological and Obstetrical specialties—a position which cannot be recommended too highly.

James E. Pittman is beginning his fourth year of hospital work in Barnes Hospital, St. Louis.

Wirt A. Warren has an appointment as Resident in Sedgwick County Hospital, Wichita, Kans. He reports that the residency is of the "mixed type". Sedgwick County Hospital is a new institution not as yet listed among the registered hospitals. Work is entirely charity and the hospital is staffed on a rotating plan by the physicians of the County.

Allen Pepple has an appointment as Interne in Sacramento General Hospital, Sacramento, Cal.

TULANE. Vernon B. Harrison is practicing at Clarksdale, Miss. He is also Director of the Coahoma County Health Department in that city.

Nicholas Atria has an appointment as Assistant Resident Physician in Hudson County General Hospital, Laurel Hill, Secaucus, N. J.

McGILL. F. Ralph Connel is practicing at 72 Sydney Street, St. John, N. B.

Michael J. Harkins has an appointment as Adjutant Surgeon in the Central Maine General Hospital, Lewiston, Me. He is also in practice at 28 Union St., Lewiston.

MacLean J. Gill is Resident in Boston Children's Hospital, Boston, Mass.

Vernon D. Schaffner is practicing at Kentville, N. S.

Medical Economics

We come to you today with an interesting problem in Medical Economics. We come without any personal feeling in the matter but with a sincere desire to assemble data which may be helpful to our beloved profession. Let no one misunderstand us. This page today contains not a single item of propaganda. It presents a point of view which some men hold. It seeks to learn whether any considerable number of the younger members of a most conservative profession approve or disapprove of the viewpoint. It proposes to use the information for the good of the medical profession. You are therefore urged to read it and write the editor your feelings in the matter. Frank H. Simmonds has recently stated that, "Youth, disillusioned, weary of our present economic mess, holds the only real threat of revolution in America today." New dealers and old, left and right wings, will be swept aside alike, he feels, should youth start on a march for its own goals.

Those of us who are in middle life or past are discouraged and whipped. Those of us who are naturally conservative view with alarm the passing of the institutions which in our youth we learned to revere as sacred. This constitutes the fear that the present administration is the beginning of the Red revolution, disguised for the present. Those of us old-timers who pride ourselves on the liberalism of our viewpoint are trying to support the New Deal because we hope that it will bring a good deal of those social reforms which we have waited for since our youth. But all of us old-timers when young could afford to wait because we had opportunities, both social and economic.

What of the youth of today? For six years now we have been each year bringing forth an army of more than one million young men and women, just come of age, ready to do the work of the world, anxious to fulfill their destiny, mate, rear their young and establish an honorable place for themselves in society. What have we had to give them? Nothing but the C. C. C. camps, an odd job here and there, but nothing to insure the future. The state or their parents may support them a while longer but these youth resent the unfairness of this. They are anxious for a chance to get at their life's work. Many of them have gone back to school just to stay off the street—I know personally a half dozen engineers who have gone back and gotten Ph. D. in Science degrees because they had nothing else to do. To what do most of these youths have to look forward? What does the old system in the present New Deal have to offer them?

Their situation is desperate for those who came up in 1929 are now in competition with five men for whatever the system has to offer—one from each of the years '30, '31, '32, '33, '34. Each year another wave of a million youth coming from our high schools and colleges comes out fresh and ready to work at the jobs for which they have prepared themselves. Those doors of opportunity are barred. There is no job at which they can set themselves which can give any promise of a decent reward. In the meantime, if it were possible for the God of the things as they are to bring back prosperity of the good old variety, the youth of yesterday and today would be swept aside by the oncoming classes.

We who are past middle life know that a return to the good days will do us no good. We shall plod on hoping for either the return to constitutional government if we are naturally conservative or for the social reforms we have longed for since our youth if we are liberal. Knowing full well, however, younger and more active men will do our work better for less money and that of the pittance we do earn we must spend one-half or more as taxes in some form or other to support the system, old or new, with its obligations to folly. But we have been made old by the depression. Our morale is broken. "We can take it" because it is much easier to take than to do anything about it.

What we are wondering now is how the young people who have laboriously prepared themselves to enter the professional class will take it. Of these architects, lawyers and engineers have the doors of opportunity most tightly barred against them. During these depressions there has been a great number of young physicians who have stayed on for another interneship or taken residencies. Thousands have established themselves in little country villages. It is our observation that these men are not happy in their location. They themselves have nothing in common with the neighborhoods and their wives are especially unhappy as they fill the necessary adjustments to the social life of the countryside. The young doctor and his wife are at this time making a living but the future looks mighty dark.

So we agree with Simmonds that a clash between labor and capital will never occur. They really are trained to think in the same lines and the conflict is merely a group of old horse-traders on each side trying to out-smart each other. The differences between the "Old Dealers" and the "New Dealers" are after all only subjects for conversation so far as they appeal to the youth of the land. And youth must be served in America as well as in Russia, Italy, and Germany. You and I view the New Deal with alarm because of its apparent radicalism but we must remember that to boys and girls of today it will appear as a bit of conservatism.

The salvation of the New Deal rests solely upon its ability to offer opportunities to the youth of today.

We have set forth above a certain viewpoint, not necessarily our own, but one which bears an important relationship to our future. As a contribution to this problem I want to get the reaction of a cross section of the medical student body of this country to the situation. Will you be kind enough to write me your thoughts upon this question? Do you feel that Medicine offers as great opportunities for a career as it did the preceding generation? Did you come into Medicine because you felt it might give the best protection and security in event of a social revolution? If a new leader would arise offering new and adequate opportunities for work, for a chance to establish a home, for adequate rewards, would you or any considerable number of your associates march with him? In other words, please write to us and tell us just what your feelings about the Old Deal and the New Deal are, just how you think the catastrophe of the last four years will affect your life and what you propose to do about yourself.

CINCINNATI. Earl W. Bailey is practicing in Bunker Hill, Ind.

Ewald Pawast is in practice at Wiley Smith Clinic, 39 South Main Street, Fond du lac, Wisconsin.

Richard R. Marnell is located at 1828 Republic Street, Cincinnati.

ROCHESTER. Russell E. Sangston has an appointment as Assistant Resident in Pediatrics in the Cincinnati University group of hospitals, Cincinnati, Ohio. His address at present is Children's Hospital, Cincinnati.

Roger Kuile has an appointment as Resident in Midtown Hospital, New York City, until April, 1934. He will then go to Sloane Hospital for Women, New York, N. Y.

Philips H. Landers is serving a two-year rotating service in Presbyterian Hospital, Philadelphia. He reports that this is a very good service of two years rotation. Plenty of work and plenty of responsibility. The hospital is an old one of excellent reputation and has an attending staff, many of whom are outstanding in their fields.

Thomas B. Garlick is in practice at 937 Monroe Avenue, Rochester, N. Y.

Eugene W. Carpenter has an appointment as Interne in Jersey City Hospital, Jersey City, N. Y.

TORONTO. Oliver T. Ghent has an appointment as Resident physician in Wyoming County Hospital, Warsaw, N. Y.

James A. Walters writes as follows, "I am at present employed in the Ontario Hospital Service as a graduate interne. There are no time limits specified but during next year I expect an appointment as Junior Physician and expect to remain in that service doing Neuro-phychiatric practice. At present my address is Whitby, Ontario, but one never knows when this may change to some other Ontario Hospital location."

Thomas Beath is a student in Anatomy and Physiology in London, England.

Louis H. Carroll is practicing at Stayner, Ont.

James W. Graham has an appointment as Senior in Medicine in Toronto General Hospital, Toronto.

Payson B. Ayres is assistant to Dr. S. A. Thompson, Mason Street, Greenwich, Conn.

John T. Biehn is specializing in the practice of Eye, Ear, Nose and Throat, at 137 North Christina St., Sarnia, Ont.

STANFORD. Rodney B. Hartman has an appointment as Assistant Resident in Children's Hospital, Hollywood, Cal.

Albert W. Snoke, will remain as Resident in Pediatrics in Stanford University Hospital, San Francisco, Calif.

PENNSYLVANIA. Dr. Harry Z. Hibshman, Lambda Phi, has been promoted to full Professorship in Proctology in the Medical Department of Temple University.

OHIO STATE. Ted Allenbach, formerly Associate Editor of THE JOURNAL has opened an office at 2516½ W. Broad st., in Columbus, Ohio.

TENNESSEE. Dr. Charles D. Blassingame, Chi Epsilon Chapter, University of Tennessee, has recently been elected President of the Tennessee Academy of Ophthalmology and Oto-Laryngology. Dr. Blassingame is also Associate Professor of Oto-Laryngology at the University of Tennessee.

SOUTHERN CALIFORNIA. Dr. Albert Soiland of Los Angeles is visiting in Norway this summer.

* * *

The active Chapter at the University of Tennessee held a swimming party and picnic at the Harbin Picnic Grounds, Saturday night, August 3rd. About 25 couples attended.

* * *

Preston H. Watters will remain as Assistant Resident in Medicine in Strong Memorial Hospital, Rochester.

PLANNING FOR 1934-1935

(*Continued from page* 3)

which will be mutually helpful in making better physicians, makes a truly professional fraternity. Divorced from the demands of a larger budget, our "big city" groups need not go in for numbers —five to seven men in a class is ample. A stricter selection of the pledges can therefore be practiced. This reduces the problem of rushing. For practical purposes this really means that the Chapter can concentrate on securing the keyman in the freshmen class who will be congenial to them.

There must be a meeting place—a room or a hall—headquarters. Our Pittsburgh Chapter has ideal arrangements of this kind. The Chapter rents rooms in a hotel, where the management provides a small conference room or a sample room for business meetings, a small hall for initiation and in the case of the Pittsburgh Chapter the use of a swimming pool is thrown in.

SOCIAL LIFE

These activities should be planned to have a minor but proper place in the Chapter life. They should be included in the Budget so that the yare not burdensome to anyone. Some of our Chapters give their official sanction and budget allowance to only two affairs i. e., the annual banquet and the annual spring dinner dance. Once or twice each term most of the Chapters agree to meet on a Saturday night in a certain night club or restaurant and each man make his date and reservation accordingly. These informal, unofficial parties add much to the life of the group without being a burden to anyone since the cost is much less than for an official party and only those who wish to go have to pay.

FRATERNITY PUBLICATIONS

Every member of the Chapter should be familiar with the Laws of the Fraternity and the contents of the Manual.

THE JOURNAL has been very much neglected by certain Chapters and so has not been able to bind the Alumni to the Chapter in the way it would have had it been given the news with which to do it. The president should make it his business to check on this and see that a goodly number of news items both about the Chapter activities and the Alumni are in the hands of the Editor every month.

THE DISTRICT GRAND COUNCILLOR

The Chapter president should make it a fixed practice to write his District Grand Councillor a personal informal letter on the first of each month telling him of his problems and accomplishments. The Councillor will be most happy to

(*Continued on page* 12)

PHI RHO SIGMA'S SELECTION OF MEDICAL SCHOOLS*

The high scholastic standing of our Fraternity may be reflected in the type of schools where chapters of Phi Rho Sigma are established. The recent "State Board Edition" of the Journal of the A. M. A., compiled for the year 1933, brings out some interesting facts about state board examinations held in the United States.

Results in Schools Where Chapters of Phi Rho Sigma are Established

Among the 36 medical schools in the United States and Canada, where active chapters of Phi Rho Sigma are maintained, fifteen of these schools had no failures during the 1933 examinations in the United States.

Ohio boasts the best record of any state in the Union, where more than one medical school exists. These three medical schools, Ohio State, Western Reserve and Cincinnati, all had perfect records, with no state board failures in the United States. All of the previous mentioned schools in Ohio maintain chapters of Phi Rho Sigma.

The medical schools on the Pacific Coast point with pride, the best sectional record, five medical schools, with only one failure. The only state board failure among this group on the Pacific Coast was credited against the College of Medical Evangelists, Los Angeles, Calif. It may be well to note that this sectarian school does not permit medical fraternities on its campus. Phi Rho Sigma has two well established chapters on the Pacific Coast—University of Southern California and Leland Stanford.

The three largest graduating classes without failures are: First, Washington University, St. Louis, passed 108, no failures; second, University of Tennessee, passed 105, no failures; third, University of Iowa, passed 101, no failures.

Perhaps the real acid test was made by those schools which have the greatest geographical distribution of students. First, Northwestern University (home of Alpha Chapter), examinations were taken in 27 states, passed 138, failure 1; second, Rush Medical College, 26 states, passed 144, failures 2; third, University of Pennsylvania, states 23, passed 119, failures none. The percentage of the University of Pennsylvania is best among this group.

Among the 5658 applicants in the United States only 54 failures were credited against our roster of schools. The result gives 0.9% of the total applicants, or 1% excluding the foreign schools.

*Compiled from the Journal of the A. M. A., April 28, 1934.

Results in Schools Where No Chapters of Phi Rho Sigma are Established

This group is composed of 38 schools in the United States and Canada, where chapters of Phi Rho Sigma are not established. The greatest number of failures in the United States and Canada were made by Georgetown University, 144 applicants with 22 failures.

The greatest percentage of failures from any medical school in the United States and Canada (this list does not include Canadian State Board results). First, University of Montreal, passed 2, failed 7, 77.8% failures; second, Laval University, passed 4, failed 6, 60% failures; third, University of Buffalo, passed 57, failed 10, 14.9% failures. (It will be noted that the Phi Rho Sigma Charter at the University of Buffalo was withdrawn at the last convention of the Grand Chapter held at Atlanta, Ga., 1931.)

The largest number of applicants rejected by any state board, as follows: New York State board—First, University of Buffalo, 10 failures; second, tied, Georgetown University and New York Homeopathic Medical School, 9 failures each.

The 38 medical schools in the United States and Canada which do not possess chapters of Phi Rho Sigma had 2.5% failures, while the 36 medical schools which do have chapters of Phi Rho Sigma less than 1% of these applicants failed.

It would be interesting, indeed, if data were available to compile the actual state board percentage of failures (1933) among the graduates of Phi Rho Sigma. We are willing to wager the percentage mortality would be very low, if any. Perhaps during the cool summer moments, our Central Office may be able to obtain this information from the various medical schools.

MARSHALL STEWART, M. D.,
Alpha Lambda.

ARKANSAS. Lex L. Penix has an appointment as Intern in St. Luke's Hospital, Denver, Colo.

Vernon A. Gotcher is Assistant Surgeon, U. S. Public Health Service, 19th and Constitution Avenue, N. W., Washington, D. C.

Arthur D. Fowler is engaged in private practice with Dr. Claude S. Chambers, Seminole, Okla.

James M. Kolb is practicing with his father at Clarksville, Ark.

NORTHWESTERN. Dr. Irving S. Cutter, Grand President of Phi Rho Sigma, has joined the ranks of editorial columnists. He is now editing the column "How to Keep Well" for the Chicago Tribune. The column is being syndicated throughout the country.

OHIO STATE. Announcing the marriage of Clare Smith of Strasburg, Ohio, to Miss Carolyn Louise Birnbaum, on July 14th.

TENNESSEE. Aubrey Richards has an appointment as Assistant Physician in Psychiatry in Western State Hospital, Memphis, Tenn.

Bevelah R. Howard is practicing at Isaban, W. Va.

Henry D. Hodges is engaged in practice at 6556 S. Halstad Street, Chicago, Illinois.

James F. Fargason intends to remain as Resident in Methodist Hospital, Memphis. He reports that the residency there covers all branches of medicine and surgery. The great bulk of the work is in surgery and gynecology. There are about forty beds on charity service. The observance and assistance with private cases also affords the Resident and Internes rather wide experience. There is a very excellent and active and visiting staff, generally speaking, all of whom are cooperative and very considerate of the resident staff.

GEORGIA. Joseph A. Leaphart is practicing at Jessups, Ga.

Clifton J. Derrick will remain as Resident in University Hospital, Augusta, Ga. He expects to take one year of medicine and then transfer to pediatrics.

Herschel B. Harris is located at Athens, Ga.

Glenn J. Bridges will remain in King's County Hospital, Brooklyn, N. Y., until June, 1935.

Ralph T. Heath will remain as Resident in Medicine and Surgery in City Hospital, Macon, Ga.

George A. Holloway has an appointment as Resident in Piedmont Hospital, Atlanta, Ga. He has just completed his Internship in Grady Hospital and reports that this offers an excellent two year rotating Internship.

EMORY. Charles A. Eberhart will remain as Resident in Medicine in Gray Hospital, Atlanta, Ga.

Crawford F. Barnett, Jr., is practicing at Doctors Building, Atlanta, Ga.

Marion T. Benson will remain as Assistant Resident in Obstetrics and Gynecology in Grady Hospital, Atlanta, Ga.

DALHOUSIE. Douglas A. Gibbon has an appointment as Assistant Resident in Pediatrics, University Hospital, Ann Arbor, Mich. He has just completed an internship in St. Johns General Hospital and reports that it gives a good general internship for anyone preparing to enter general practice.

John H. Budd will remain as Resident in Surgery and Medicine in Charity Hospital, Cleveland, Ohio.

CHAPTER HIGHLIGHTS

PENNSYLVANIA. Lambda Phi initiated five men into Phi Rho Sigma Saturday afternoon, December 16, 1933, at the Chapter House. The initiates were: C. Luther Hinkel, '36, of Berwick and Hershey, Pa., who entered from Gettysburg College; Henry Pletscher Close, '37, of Germantown, graduate of LaSalle College (Philadelphia); J. Robert Montgomery, '37, of Pittsburgh, who received his B. S. at Penn State; Joseph W. Puerner, '37, of Buffalo, N. Y., who graduated from University of Buffalo with Magna Cum Laude; and Edgar Lee Ralston, Jr., '37, of Midway, Pa., who took his undergraduate work at Muskingum College. Brother Puerner is the son of Dr. George W. Puerner, Phi Rho of the Buffalo Chapter, class of 1907.

Three pledges have been carried over until the next initiation. These men are Clark Markel, '37, of Zelienople, Pa., alumnus of Allegheny College; Raymond Sheely, '37, of Gettysburg, Pa., graduate (as Salutatorian) of Gettysburg College; and John Steele, '37, of Philadelphia, who advanced from University of Pennsylvania.

Following the initiation, the chapter and guests retired to the Hotel Normandie for the initiation banquet, at which occasion Dr. Seneca Egbert, professor emeritus of Hygiene at University of Pennsylvania Medical School, and a brother in Lambda Phi, presented the charge to the new members. Brother John A. Reisinger, of the Pharmacology department, also spoke.

The chapter was host to the other medical fraternities on the campus, and to the chapters of Phi Rho Sigma at Jefferson Temple at a formal dance held at the Hotel Normandie the same eveing.

Dr. Seneca Egbert has shown a great deal of interest in the chapter library, which is gradually growing into a very valuable part of the house. Dr. Egbert has donated to the chapter all the issues of the *Journal of the A. M. A.* for the past several years, in addition to *The Pennsylvania Medical Journal,* and *The Weekly Roster and Medical Digest* of the Philadelphia County Medical Society. He has moreover promised the chapter a considerable number of books from his departmental library, on Preventative Medicine and Hygiene.

Brother Ralph Bradley, '29, now in the Department of Pharmacology at Temple Medical School, broke into the front pages and rotogravure sections of the East by failing to pass Mrs. Gifford Pinchot in her physical examination for application to become an aviatrix. The Governor passed his examination, and promises to be the first state governor to gain a pilot's license. Ralph says the Pennsylvania executive and his wife are "real people," who are among the gamest sports he knows.

Brother Julius Wallner, '35, has replaced Bro. Lawrence Van Tilborg, '34, as house manager; and Brother William Yauraus, '36, has been elected to take the place of Brother John S. Gates, '34, as house treasurer. Both the former incumbents resigned in order to aid the finances of the chapter by giving up their "pay jobs" to more needy members of the chapter.

Brother Regis J. McNamee, '35, of Lakewood, Ohio, has set the example for the rest of the Juniors by announcing his engagement to Miss Alice Fern Brady, also of Lakewood. The festivities took place during the Christmas vacation.

Brother Robert A. Kimbrough, '22, one of the lecturers on Gynecology at University of Pennsylvania, addressed the Barton Cooke Hirst Obstetrical Society at the chapter house recently. His subject was Carcinoma of the Cervix. Lambda Phi, with the local chapter of Alpha Kappa Kappa, controls membership into this society, whose distinguished patron attends every meeting.

The Society will present Dr. DeLee of Chicago as guest lecturer at its annual open meeting to be held in March. At this time Dr. DeLee will show some valuable moving pictures for the first time.

As usual, Lambda Phi has its representatives on the list of class officers. This year David Caldwell is president of the sophomore class.

Interneships have been secured by the following brothers: Joseph B. Cady, Robert Packer Hospital, Sayre, Pa. James Cooper, Chester Hospital, Chester, Pa. Marion Black, City Hospital, Cleveland, Ohio. Dorn Hower, Presbyterian Hospital, Philadelphia, Pa. Lawrence Van Tilborg, Abbington Hospital, Philadelphia. John S. Gates, Harrisburg Gneral Hospital, Harrisburg, Pa. Clayton Morevec, Ellis Hospital, Schenectady, N. Y. Thomas Umphlet, Grasslands Hospital. Vallhalla, N. Y. James Y. McCoullough, Harper Hospital, Detroit, Mich. Ernest Wiesner, Worcester City Hospital, Worcester, Mass. Herman Farber, Graduate Hospital, Philadelphia.

And the following juniors, for next summer: Regis J. McNamee, Surgical Pathology at Mayo Clinic, Rochester, Minn. William A. Guenon, Long Island City Hospital, Long Island City, N. Y. W. Meredith Heyl, Williamsport General Hospital, Williamsport, Pa. C. Harold Johnson, Williamsport General Hospital, Williamsport, Pa. J. Paul Proudfit, Washington Hospital, Washington, Pa. George C. Hayes, Winber Hospital, Winber, Pa.

The chapter invites all alumni and brothers to share the comforts of the chapter house whenever they may be in Philadelphia. 4037 Spruce Street, (West Philadelphia).

James Harrill, transfer from Wake Forest Chapter to the U. of P. third-year class, has affiliated with Lambda Phi Chapter.

CHI EPSILON. Chi Epsilon Chapter held its annual banquet at the Peabody Hotel April 27, 1934. Fifty-five guests were present, including the Alumni, Active and Pledge members of the chapter. Dr. Richmond McKinney acted as toastmaster.

MU. Mu Chapter entertained the Alumni and Rushees at a smoker held in the chapter house April 26, 1934. Approximately seventy-five persons were present, including the following Alumni: Dr. John T. McClintock, Chairman of the Interne Committee and Junior Dean of the Iowa College of Medicine; Dr. Fred M. Smith, head of the Department of Medicine; Dr. C. E. Van Epps, head of the Neurology Department; Major E. L. Titus, head of the medical unit of the R. O. T. C.; Dr. D. R. Webb, tuberculosis specialist from Oakdale Sanitorium; Dr. E. P. Russell, resident interne on orthopedics; Dr. R. C. Collins, resident interne on obstetrics; Dr. Joe Kinkade and Dr. B. W. Merkle, internes on opthalmology; Dr. Frank Huff, junior interne; and Dr. Paul A. Reed, Dr. F. L. Love and Dr. A. W. Bennett, practitioners in Iowa City.

At recent initiation ceremonies held by Mu Chapter, several alumni were present, including Dr. J. T. McClintock, dean of medicine, Dr. Joseph Kinkade, Dr. Robert Collins, Dr. Elwood Russell and Dr. Daniel R. Webb.

Cheston Ogden, Mu '30, is taking work at the present time in head specialties in Pasadena, California.

Grant Bullock, '30, formerly in practice at Sioux City, Iowa, is now practicing at Washta, Iowa.

Norman Flater, '31, has set up practice in Floyd, Iowa.

Vernon Peterson, '33, who has been interning at Harper Hospital, Detroit, will return to the State University of Iowa Hospital in July, 1934, having received an interneship in Surgery.

TEMPLE UNIVERSITY. At a recent initiation ten men were taken into the active chapter. Dr. MacNeill and A. C. Morgan were present at the initiation and the banquet that followed. A fine time was had by all.

The chapter is planning upon taking a house next year and are planning for a big year at Temple.

NORTHWESTERN. Harvey S. Allen has completed his interneship at King's County Hospital, Brooklyn, and has an appointment as resident in surgery in Passavant Hospital, Chicago.

Robert A. Allen will remain in Harper Hospital, Detroit, as Senior interne in the out-patient department. He reports that all second year appointments and residencies are made from candidates who have spent their first year as Junior internes.

Erwin E. Glashagel has an appointment as resident in Gynecology and Obstetrics in St. Luke's Hospital, Chicago. He reports the residency in St. Luke's Hospital is a very active one. The resident operates the service cases and has the opportunity of getting about sixty to seventy-five complete cases.

Charles B. Kimmell is associated in private practice with Dr. Samuel J. Long (also a Phi Rho) at 1414 Lincoln Street, Evanston, Ill. Brother Kimmell is also on the teaching staff at Northwestern Medical School and assists in the medical clinics of that school.

Otis E. Marler, who served his interneship in Cleveland City Hospital, has an appointment as resident in the Wichita Hospital, Wichita, Kansas.

Robert W. King has completed his interneship in General Hospital, San Francisco, and is now House Officer in San Francisco City and County Hospital.

Hoyt B. Woolley is in practice at 205 Jennie Rogers Building, Idaho Falls, Idaho.

Otto E. Brantigan has completed his interneship in City Hospital, Baltimore, and has an appointment as General Resident in Wheeling Hospital, Wheeling, W. Va.

Ralph M. Crowley is now a Resident in Psychiatry in The Sheppard and Enoch Pratt Hospital, Towson, Md. He reports that this is a fine residency. He also says that he would be glad to give whatever help that he can to any Phi Rho who wishes to know about Cook County Hospital and its residencies or about residencies in psychiatry anywhere.

H. Vaughan Scott has an appointment as interne in the Children's Memorial Hospital, 707 Fullterton Avenue, Chicago.

Edwin G. Robinson will remain as Resident in Surgery in the Fifth Avenue Hospital, New York City.

CHICAGO. Ray F. Crawford is practicing at 1180 E. 63rd Street, Chicago.

John H. Glynn has an appointment as Lecturer in Bacteriology in McGill University, Montreal.

John D. McCarthy is engaged in general and industrial practice with Dr. William F. O'Malley, 671 East Big Bend Road, Webster Groves, Mo.

William McGrath is practicing at 1753 W. Congress Street, Chicago.

Ralph J. Eckman is practicing at 2131 West Superior Street, Duluth, Minn.

PLANNING FOR 1934-1935

(*Continued from page 7*)

respond with advice and helpful suggestions. This should not be overlooked by a single Chapter president.

THE CENTRAL OFFICE

In the same way, the Chapter corresponding secretary should write to Dr. Elliott. In the administration of our Fraternity the paper work has been cut down to the minimum so that there are comparatively few routine forms to send in. The few that there are should be sent in on time otherwise it makes a lot of extra work on an undermanned staff. These personal letters will pay big dividends both to the Chapter and to the officers personally.

CAMPUS POLITICS

Just one word of advice which experience has taught the national officers of every fraternity, both social and professional. Stay out of them. Nothing good can come out of such activity. They give the school authorities the feeling that fraternities are a problem and not a help to them. A good way to give the whole fraternity system a black eye is to indulge in these childish manipulations. If this same energy is put into productive work for the Chapter it will do a lot of good instead of harm.

SUMMARY

In conclusion, then, the first thing to do when school opens is for the President to get his Executive Board together and lay the plans for a well rounded year of Chapter activities. A good rushing campaign with the selection of the proper men; a workable budget for the Chapter; a reasonable but well considered social calendar; excellent program of Alumni talks; proper and consistent publicity bth on the campus and downtown; keying the Chapter to be a help in learning Medicine. In this way, the Fraternity can serve you all as it is designed to do and each of you will have a better time, enjoy closer friendships, and make better physicians for having belonged to a Chapter of Phi Rho Sigma.

LOS ANGELES. The cornerstone of the library of the Los Angeles County Medical Association was laid, June 21, by Dr. Walter Jarvis Barlow. It is expected that the new building will be ready for occupancy about September 1st. Bro. Barlow, Delta Chapter, built the orginal Barlow Medical Library at the old Medical College of the University of Southern California. This building has become obsolete since the Medical School moved on the campus. The new County Medical Library has taken over the books of the first benefactor, Dr. Jarvis Barlow. This library will rank as one of the best medical libraries on the Pacific coast.

CHAPTER ETERNAL

Dr. Max R. Gabrio, Rho, died at his home in Trevose, Penn., following a heart attack. Dr. Gabrio was a widely known eye specialist; and was former chief resident physician of the Philadelphia General Hospital for the Insane at Byberry, Penna.

Dr. Walter S. Holmquist, Zeta '02, died in Manila April 18, 1934, from a heart attack. Up to the time of his death Dr. Holmquist resided at 1571 San Lorenzo Ave., Berkley, California.

ST. LOUIS. Roscoe W. McKinley, Burlington, Washington, died March 14th, of septic sore throat and pneumonia. He was very active in local and state medical circles.

DETROIT. Dr. William M. Donald has been appointed Chief of the Medical Department of the Wayne Medical School, Detroit, Michigan.

MEMPHIS. Little Jimmy Stanford, nine-year-old son of Dr. and Mrs. James Stanford, Memphis, died suddenly at the Baptist Hospital, shortly after he had undergone an emergency appendix operation. His father is an eye specialist and president-elect of the Memphis and Shelby County Medical Society.

ARKANSAS. Miles Dawson Kelly, Chi Zeta, died at his home in Lonoke, Arkansas, on June 11th. He is survived by his wife and four children.

Dr. Robert H. Wolcott, Iota, died January 23, 1934. Dr. Wolcott was former Dean of University of Nebraska College of Medicine.

Dr. A. D. Dunn, Iota, died January 8, 1934. Dr. Dunn was Chairman of the Department of Medicine of the University of Nebraska College of Medicine.

Dr. Carbon Gillaspie of Denver, Colorado, died May 5, 1934. Dr. Gillaspie was long a teacher at the University of Colorado Medical School.

JEFFERSON. Dr. Max R. Gabrio, widely known eye specialist, died at his home in Trevose, Pennsylvania, from heart disease. He is survived by his wife and daughter.

Dr. Charles Henderson Miller, Sr., Alpha, '98, died at the Woodlawn Hospital, Chicago, Illinois, March 12, 1934, of heart disease. He was at one time Assistant Professor of Pharmacology at Northwestern University.

"I have to know a man well before I will accept a favor from him."

A great many persons would have avoided much trouble had they followed that saying as a guide to their behavior, for there is nothing more dangerous in the world than accepting favors, and it has been my experience that accepting a favor usually is more costly than granting one.

IOTA. The Annual Alumni Banquet of Iota Chapter was held May 11, 1934. Approximately sixty of the Alumni from Nebraska and surrounding states attended. Speakers were Dr. H. B. Hamilton, toastmaster; Dr. Richard Young, Dr. Olin Cameron, Dr. Willis D. Wright and Norton Francis, president.

Dr. Richmond McKinney, Chi Epsilon, is receiving congratulations from the city of Memphis, Tennessee, for securing the National Pro Tennis Championship Tournament for that city for the year 1934. Dr. McKinney is president of the Memphis Country Club. He is Prof. of Oto-Laryngology at the University of Tennessee and is president of the Bronchoscopic Society of America.

MARRIAGES

Dr. James Mebane Robertson, Alpha Lambda '32, was married to Miss Anna Mae Jones on Friday, March 2, 1934, at Ferguson, North Carolina. Dr. Robertson has been practicing in Charles, North Carolina.

PLEASE FILL IN AND SEND TO THE CENTRAL OFFICE WHERE DISTRIBUTION WILL BE MADE

DR. RALPH W. ELLIOTT,
10515 Carnegie Ave.,
Cleveland, Ohio.

My Dear Frater: I am sending you the full names, addresses, college and the name of medical school of the men whom I know are entering medicine this fall. These men are above the average in personality and those characteristics which make for success in our profession. Their scholastic records would indicate that they should have no trouble in staying in medical school. They come from honest parents who have instilled this virtue into them. I send their names to you that the proper officials may get this information promptly. I shall speak to each of them of our Fraternity and what it is doing to help medical education, of its traditions, of what it has stood for in medical schools for the last forty-two years. I shall impress upon each of them the importance of high scholarship, clean conduct, and congenial companions as well as the value of fraternal relationships in professional contacts.

Yours

in Φ P και Σ.
